Growing San Diego's Innovation Economy

Cubic Corporation is one of the region's leading public transportation and defense companies, employing more than 1,500 employees locally. To strengthen Cubic's regional presence and local site consolidation, Cisterra partnered with San Diego leaders including: the City of San Diego, the San Diego World Trade Center, and the San Diego Regional Economic Development Corporation.

The campus renovation will include beautifully landscaped areas including properly sized detention basins and a new parking lot with a field of solar panels and electric vehicle charging stations. Additionally, the campus will incorporate new amenity areas including a basketball court, numerous outdoor gathering and meeting spaces, as well as a new café and fitness center.
